**Food Processing Hose with Microban®**  
A more sanitary way to do business

## Benefits of Microban® in the Cover

Experience an added level of protection that helps boost product safety while guarding against hose degradation and contamination from the growth of bacteria, mold and mildew. Built into every ContiTech food processing hose during the manufacturing process, Microban® antibacterial technology:

- › Provides around-the-clock, permanent antimicrobial product protection
- › Keeps hoses cleaner between uses
- › Helps prevent hose deterioration from damaging bacteria, mold and mildew

Microban® is a registered trademark of Microban Products Company.

## Microban® Efficacy Demonstration

This information is based upon standard laboratory tests and is provided for comparative purposes to substantiate antimicrobial activity for non-public health applications. Microban® technology is not designed to replace good hygiene practices or protect users from disease-causing microorganisms. Antimicrobial action limited to product surface.

## ExtremeFlex Beverage with Microban®

Suited for applications requiring flexible and/or tight bend connections, ExtremeFlex Beverage is lightweight, flexible and easy to handle. Its chlorobutyl tube doesn't impart taste or smell, making it ideal for beer, wine, distillery and beverage (edible liquid) transfer processing facilities.

- › **Tube:** White Chlorobutyl (FDA/USDA compliant and conforms to 3-A Sanitary Standard 18-03), non-phthalates compound
- › **Cover:** Corrugated red EPDM with Microban®
- › **Reinforcement:** Spiral-plyed fabrics with double galvanized helix wire
- › **Order code:** 549-004

## Vintner with Microban®

A crush-resistant alternative to traditional softwall or steel wire reinforced hoses, Vintner's innovative construction allows it to spring back to shape when crushed. Ideal for the handling of in-plant and/or tank truck transfer of wine, beer, potable water and other non-oily, liquid foodstuffs.

- › **Tube:** White Chlorobutyl (FDA/USDA compliant and conforms to 3-A sanitary standard 18-03), non-phthalates compound
- › **Cover:** Red EPDM synthetic rubber with Microban®
- › **Reinforcement:** Spiral-plyed synthetic fabric with monofilament helix
- › **Order code:** 549-009

## Brewline with Microban®

Created for abrasion and environmental resistance in even the harshest conditions, Brewline's quality discharge hose is ideal for the demanding service of transferring non-oily edible liquid and beverages.

- › **Tube:** White Chlorobutyl (FDA/USDA compliant and conforms to 3-A Sanitary Standard 18-03), non-phthalates compound
- › **Cover:** Red EPDM synthetic rubber with Microban®
- › **Reinforcement:** Spiral-plied synthetic fabric, 4 plies to 1½ in. ID; 6 plies over 1½ in. ID
- › **Order code:** 549-003

## Blue Fortress 300 with Microban®

Featuring a super abrasion and oil-resistant cover, Fortress provides maximum protection against the adverse effects of oil and animal fats. Its high-quality construction is ideal for hot water up to 200°F (93°C) cleanup service in food processing plants, dairies, packing houses, bottling plants, breweries, canneries and creameries.

- › **Tube:** White Nitrile tube made with FDA compliant materials
- › **Cover:** Blue Carbryn™ synthetic rubber, RMA Class A (High Oil Resistance) with Microban®
- › **Reinforcement:** Spiral synthetic yarn

## Additional Washdown Hoses

with Microban®

## ContiTech. Engineering Next Level

As a division of the Continental Group, ContiTech is a recognized innovation and technology leader in natural rubber and plastics. As an industry partner with a firm future ahead of us, we engineer solutions both with and for our customers around the world. Our bespoke solutions are specially tailored to meet the needs of the market. With extensive expertise in materials and processes, we are able to develop cutting-edge technologies while ensuring we make responsible use of resources. We are quick to respond to important technological trends, such as function integration, lightweight engineering and the reduction of complexity, and offer a range of relevant products and services. That way, when you need us, you'll find we're already there.
